

## LACK INTEREST IN MINE STOCKS

Prices in Majority of Shares Hold Steady During Exchange Sessions

Trading today on the Salt Lake Stock & Mining Exchange continued rather quiet, as it has been for the last few days. The prices in the majority of the stocks were about steady. The Standard was again practically the only active stock, opening at \$3.05 and strengthening, selling up to \$3.10, and then settling at \$3.08. The close was only \$3.05 bid and \$3.10 asked. Big Hill brought 4 1/2c, Eureka Lilly changed hands at 3 1/2c, Columbus Rexall went at 3 1/2c, and 4 1/2c. Hovey brought 5 1/2c, Lehi 4 1/2c. Tintic changed hands at 2 1/2c. Michigan-Utah was very active at 2 1/2c. Emma Silver was steady at 1 1/2c. Eureka Bullion was active at 3 1/2c and 3 1/2c. North Standard was practically the heaviest leader of the day, opening at 1 1/2c, being sold at 2 1/2c, Zuma sold at 1 1/2c and 1 1/2c.

(Quotations furnished over private wire of J. C. Hoeg & Co., Eccles Building.)

## SELECT ISSUES HOLD ATTENTION

Wall Street Fools Advance Holdings and Sells Out at Midday

NEW YORK, June 16.—Trading at the firm opening of today's stock market indicated a continuance of recent operations by pools in selective issues, particularly steel, equipment and chemicals. Crude oil lost a fraction at the outset but immediately rallied three points. Barrett, one of yesterday's foremost features, extended its moderate initial gain to five points and General Chemical rose seven. Ralls, especially the transcontinental group, were distinctly strong under lead of Northern Pacific and Union Pacific. Many early gains were substantially increased within the first half hour. Pools experienced little difficulty in advancing their specialties during the morning. General Chemical made an extreme gain of almost nine points and Barrett rose 7 1/2. Harvesters advanced three points, presumably on announcement of the most dividend in the industry. A whole improved their early position. Ralls assumed leadership before noon, investments as well as junior issues. General Chemical and Barrett were the main features. Call money opened at 7 per cent.

Lack of public interest and selling of the stock market was the main feature at midday. Crude oil continued heavy on conflicting rumors regarding the meeting of the directors to be held later in the day.

## FLOUR AND FEED MARKETS DULL

MINNEAPOLIS, Minn., June 15.—The Northwestern Miller's weekly review of the flour trade says:

The flour and feed markets are uniformly dull with little demand except for the lower grades of flour, and mills generally are not pressing sales. Feed prices are slowly falling but are still about a dollar and a half per ton lower than the record high point four weeks ago. Flour prices dropped sharply the first part of last week but recovered and are now only about twenty-five cents per barrel lower than on June 5th. Wheat and flour prices will do next month after the new crop begins to arrive. The output continues fair for this season, which is normally slack. The Kansas-Oklahoma hard winter wheat mill reporting last week an output sixty-three per cent of capacity, the Ohio valley soft winter wheat mills forty-four per cent and the spring wheat mills forty-five per cent.

CHICAGO GRAIN. CHICAGO, June 16.—Wheat advanced in price today until September delivery had touched the highest level yet this season.

Profit-taking on the part of longer held checked the bulk, and brought about a reaction. Opening prices, which ranged from 1 1/2c off to 1/2c gain with July 1 1/2c to 1 1/2c and September 1 1/2c to 1 1/2c, were followed by a return all around, and then a material setback. Cots ascended with corn. After opening unchanged to be higher, including September at 55 to 55 1/2c, the market scored a general advance before beginning to fluctuate. Strength of grain and hops lifted provisions bills. At first, however, weakness prevailed owing to the unusually big stock of hard on hand.

METAL MARKET. NEW YORK, June 16.—Copper

July 1 1/2c to 1 1/2c and September 1 1/2c to 1 1/2c, were followed by a return all around, and then a material setback. Cots ascended with corn. After opening unchanged to be higher, including September at 55 to 55 1/2c, the market scored a general advance before beginning to fluctuate. Strength of grain and hops lifted provisions bills. At first, however, weakness prevailed owing to the unusually big stock of hard on hand.
